

SUMMARY OF CASE LAW ON WASTE PRODUCER LIABILITY

MOROCCO

We do not have a specific case on waste producer liability in Morocco, but the law is very straight-forward.

Article 6 of the [Waste Law, Number 5480 on December 7, 2006](#), expressly provides:

“Any person who is in possession of waste or produces it in circumstances that would cause harmful effects on soil, habitat, damage to sites, landscapes, air or water pollution, cause odors or generally damage human health and the environment, must ensure that these wastes are disposed of or act edifying in accordance with the conditions to avoid such effects, in accordance with the provisions of this Law and the provisions.” (emphasis added).
