The Central Commercial Register is an online service based on the central database of Estonian registration departments of the courts. This central database includes digital data from the commercial register, the register of non-profit associations and foundations and the commercial pledge register. The database is searchable by company or registry code. Free information includes name, registry code, status, area, share capital and address. Annual reports, if available, are nominally priced.

“Entries in the commercial register are public. Everyone has the right to examine the registry cards and the business files, and to obtain copies of registry cards and of documents in the business files.” Estonia Investment Agency [<http://www.investinestonia.com/en/investment-guide/establishing-a-company>].
